THE FLD EXPERIENCE

Léa Boudet, former student of the LL.M. in Human Rights, Security & Development

The practical and multidisciplinary approach to human rights of this master allowed me to acquire a solid theoretical knowledge and to be prepared for working in the field during my internship in an African NGO.

The great variety of courses, taught both in English and French, prepared us for a multilingual world. Whether through practical exercises during law clinics, visits to various International Courts and Institutions, or conferences, we had many opportunities to exchange and to learn, while developing our professional project.

Finally, the academic and administrative team was always available and keen in supporting us over the year, granting a great learning atmosphere.
